

The American Journal of Occupational Therapy

July/August 2017
Volume 71, Number 4

- Health Policy Perspectives** 7104090010 **Expanding the Implementation of the Americans With Disabilities Act for Populations With Intellectual and Developmental Disabilities: The Role of Organization-Level Occupational Therapy Consultation**
Caroline J. Umeda, Donald J. Fogelberg, Tracy Jirikowic, Jennifer S. Pitonyak, Tracy M. Mroz, Roger I. Ideishi
The authors recognize the contributions of the ADA toward accessible environments and social inclusion and discuss occupational therapy's role in closing gaps in the ADA's implementation.
- Centennial Topics** 7104100010 **Supporting Participation for Children With Sensory Processing Needs and Their Families: Community-Based Action Research**
Fern Silverman, Andrea Carr Tyszka
Adapted community events that increase participation in context may be a promising intervention to support well-being for people with disabilities and their families.
- 7104100020 **Effects of a One-to-One Fatigue Management Course for People With Chronic Conditions and Fatigue**
Katy N. L. Van Heest, Ashley R. Mogush, Virgil G. Mathiowetz
A one-to-one fatigue management course was an effective intervention to reduce fatigue and increase self-efficacy in a study of 49 people with chronic conditions.
- Special Issue on Occupational Therapy and Health, Well-Being, and Quality of Life**
- Guest Editorial** 7104170010 **Promoting Health, Well-Being, and Quality of Life in Occupational Therapy: A Commitment to a Paradigm Shift for the Next 100 Years**
Michael A. Pizzi, Lorie Gage Richards
The articles in this special issue present solid empirical evidence that occupational therapy promotes health, well-being, and QOL.
- Research Articles** 7104190010 **Intrater Reliability and Other Psychometrics of the Health Promoting Activities Scale (HPAS)**
Rachel Muskett, Helen Bourke-Taylor, Alana Hewitt
Evaluation of the HPAS with a cohort of mothers of school-age children revealed good reliability and stability, suggesting suitability for ongoing evaluation as an outcome measure.
- 7104190020 **In-Home Medication Management Performance Evaluation (HOME-Rx): A Validity Study**
Mary Catherine Murphy, Emily Somerville, Marian Keglovits, Yi-Ling Hu, Susan Stark
The HOME-Rx, a novel in-home, performance-based instrument for older adults, appears to be a valid method for assessing performance barriers to medication management in the home.
- 7104190030 **Facilitating Wellness in Urban-Dwelling, Low-Income Older Adults Through Community Mobility: A Mixed-Methods Study**
Claire M. Mulry, Christina Papetti, Julian De Martinis, Mark Ravinsky
The outcomes of Let's Go, a program designed to facilitate community participation of urban-dwelling, low-income older adults, indicated that such programming can facilitate the participation of marginalized older adults in community-based occupations.
- 7104190040 **Lifestyle Redesign[®] for Chronic Pain Management: A Retrospective Clinical Efficacy Study**
Ashley Uyeshiro Simon, Chantelle E. R. Collins
Lifestyle Redesign[®] interventions integrated into the medical plan of care improved functioning, self-efficacy, and QOL for 45 people with chronic pain.

7104190050 **Feasibility of a Lifestyle Redesign[®]-Inspired Intervention for Well Older Adults**
Theresa B. Cassidy, Lorie Gage Richards, Aaron M. Eakman
Results with 13 participants supported the feasibility of Aging Well by Design, a 12-wk community outreach program based on Lifestyle Redesign.[®]

Children and Youth

7104220010 **Child's Challenging Behaviour Scale, Version 2 (CCBS-2): Psychometric Evaluation With Young Children**
Helen Bourke-Taylor, Julie Pallant, Reinie Cordier
Evaluation of the psychometric properties of the CCBS-2 indicated that the instrument can be used to differentiate children by age, school entry, and disability and to identify families for potential services.

7104220020 **Caregivers' Perspectives on the Sensory Environment and Participation in Daily Activities of Children With Autism Spectrum Disorder**
Beth Pfeiffer, Wendy Coster, Gretchen Snethen, Maggie Derstine, Aimee Piller, Carole Tucker
A phenomenological study of caregivers' perspectives of the impact of the sensory environment on participation of children with ASD suggested that caregivers used a process that considered amount of effort necessary to support participation and whether participation was essential.

7104220030 **Pragmatic Language Outcomes of Children With Attention Deficit Hyperactivity Disorder After Therapist- and Parent-Delivered Play-Based Interventions: Two One-Group Pretest-Posttest Studies With a Longitudinal Component**
Sarah Wilkes-Gillan, Natalie Munro, Reinie Cordier, Alycia Cantrill, Wendy Pearce
Interventions involving occupational therapist and speech-language pathologist collaboration, play, and parent and peer involvement resulted in improved pragmatic language outcomes of children with ADHD across two feasibility studies.

Education

7104230010 **A Way of Seeing: How Occupation Is Portrayed to Students When Taught as a Concept Beyond Its Use in Therapy**
Pollie Price, Barb Hooper, Sheama Krishnagiri, Stephen D. Taff, Andrea Bilics
Qualitative research including analysis of eight occupational therapy programs found that three concepts—subject-centered learning, threshold concepts, and transformative learning—formed the theoretical foundation for teaching occupation as a way of seeing.

Departments

7104350010 **BRIEF REPORT
Caregiver Perceptions of a Telehealth Wellness Program**
Katrina M. Serwe, Gayle I. Hersch, Noralyn Davel Pickens, Karen Pancheri
A qualitative pilot study, in which 4 caregivers participated in a focus group after completing a 6-wk telehealth program, found that telehealth was effective in promoting learning and facilitating relationships.

7104360010 **THE ISSUE IS . . .
Integration of Medication Management Into Occupational Therapy Practice**
Jaclyn K. Schwartz, Roger O. Smith
With reforms to research, teaching, and practice, occupational therapy practitioners can better integrate medication management into regular evaluation and treatment, thereby contributing to patient outcomes defined by the Affordable Care Act.
